**Methodology:**

**1.** The report clearly specifies the object of the evaluation, and provides clear and complete description of a relevant design and sets of methods including the chosen evaluation criteria, questions, and performance standards. The methods employed are appropriate for addressing the intended use and scope of the evaluation and how the information will be used.

**2.** Ethical considerations: The evaluation report gives a complete description of stakeholders’ consultation process in the evaluation, including the rationale for selecting the particular level and activities for consultation.

**3.** Data collection, analysis, and synthesis: The report clearly describes the methods for the data sources, procedures for their collection, data collection and analysis methods. The report includes discussion of how the mix of data sources was used to obtain a diversity of perspectives, ensure data accuracy and overcome plan limitations.

**4.** Validation: The evaluation report includes discussion of how the evaluation design included ethical safeguards and mechanisms and measures that were implemented to ensure that the evaluation was undertaken with appropriate safeguards for data, privacy of the participants. The evaluation report gives a complete description of stakeholders’ consultation process in the evaluation, including the rationale for selecting the particular level and activities for consultation.

**5.** The evaluation report provides a discussion of the evaluation design and its implementation. The evaluation report provides a discussion of how the evaluation design included ethical safeguards and mechanisms and measures that were implemented to ensure that the evaluation was undertaken with appropriate safeguards for data, privacy of the participants.

**6.** The evaluation report provides a discussion of the evaluation design and its implementation. The evaluation report provides a discussion of how the evaluation design included ethical safeguards and mechanisms and measures that were implemented to ensure that the evaluation was undertaken with appropriate safeguards for data, privacy of the participants.

**7.** The evaluation report provides a discussion of the evaluation design and its implementation. The evaluation report provides a discussion of how the evaluation design included ethical safeguards and mechanisms and measures that were implemented to ensure that the evaluation was undertaken with appropriate safeguards for data, privacy of the participants.

**8.** The evaluation report provides a discussion of the evaluation design and its implementation. The evaluation report provides a discussion of how the evaluation design included ethical safeguards and mechanisms and measures that were implemented to ensure that the evaluation was undertaken with appropriate safeguards for data, privacy of the participants.

**Feedback:**

**Executive Feedback on section 1:**

**Executive Feedback on section 2:**

**Executive Feedback on section 3:**

**Executive Feedback on section 4:**

**Executive Feedback on section 5:**

**Executive Feedback on section 6:**

**Executive Feedback on section 7:**

**Executive Feedback on section 8:**

**Conclusion:**

The evaluation report provides a clear and full description of the object of the evaluation, and presents an analysis of how they can be applied to different contexts and/or different sectors, and takes into account ethical considerations such as protecting from single point observations.

**Recommendations:**

The report describes the process involved in developing the recommendations including consultations with stakeholders.

**Summary:**

The report clearly specifies the object of the evaluation, and provides clear and complete description of a relevant design and sets of methods including the chosen evaluation criteria, questions, and performance standards. The methods employed are appropriate for addressing the intended use and scope of the evaluation and how the information will be used.
