OVERALL RATING			Overall Rating	Very Good
Executive Feedback on Overall Rating	A comprehensive evaluation report that systematically addresses all of the UN Women evaluation report standards. While there are a few remaining opportunities to polish some of the organisation of information on methods, the overall report easily meets - and exceeds - the required standards.			
PARAMETER 1: OBJECT AND CONTEXT OF THE EVALUATION			PARAMETER 1	Very Good
Executive Feedback on Parameter 2	The evaluation report provides a comprehensive overview of both the object being evaluated and the key context in which it sits.			
PARAMETER 2: PURPOSE, OBJECTIVES AND SCOPE			PARAMETER 2	Very Good
Executive Feedback on Parameter 2	The evaluation purpose, objectives and scope are all clear. Evaluation criteria are defined and justified, and evaluation questions are prioritised.			
PARAMETER 3: METHODOLOGY			PARAMETER 3	Very Good
Executive Feedback on Parameter 3	The evaluation methods section includes all of the required detail. There is some scope to rationalise the presentation a little, for example the main evaluation design (cluster evaluation) is described under the sub-section on sampling. There is also scope to discuss the representativeness of the final sample.			
PARAMETER 4: FINDINGS			PARAMETER 4	Very Good
Executive Feedback on Parameter 4	The findings are systematic, addressing all the evaluation questions and marshalling multiple lines and levels of evidence to do so.			
PARAMETER 5: CONCLUSIONS AND LESSONS LEARNED			PARAMETER 5	Very Good
Executive Feedback on Parameter 5	Conclusions systematically address each of the evaluation criteria, and build on the evidence from findings. Lessons are provided.			
PARAMETER 6: RECOMMENDATIONS			PARAMETER 6	Very Good
Executive Feedback on PARAMETER 6	Recommendations respond directly to the conclusions and address all of the evaluation criteria.			
PARAMETER 7: GENDER AND HUMAN RIGHTS			PARAMETER 7	Exceeds Requirements
Executive Feedback on PARAMETER 7	<p>GEEW and HR is extensively integrated into the evaluation objectives and scope - from both a normative and programmatic perspective. The evaluation includes a comprehensive matrix of indicators that also capture both instrumental and transformative contributions.</p> <p>The evaluation includes a standalone criterion on GE&HR and mainstreams gender into all of the evaluation criteria through dedicated questions.</p> <p>The reports provides a detailed overview of the methods – which include participatory processes to include the voice of different stakeholders. Contribution analysis is relevant to identify gender dimensions; but there is more limited evidence of participation in the analysis of data.</p> <p>Findings address gender in terms of both structural and social-norms; at the institutional and the normative levels. These are carried through to the conclusions and recommendations.</p>			
PARAMETER 8: THE REPORT STRUCTURE			PARAMETER 8	Very Good
