Findings are presented with clarity, logic and coherence (e.g., avoid ambiguities). The report identifies evaluation questions and criteria. The causal factors (contextual, organizational, managerial, etc.) leading to achievement or non-achievement of activities for consultation. The mix of data sources was used to obtain a diversity of perspectives, ensure data accuracy and overcome any limitations. The report specifies and provides complete description of a relevant design and sets of evaluation measures. The report does not include a set of conclusions in a specific section, but these are included in line with each finding. Suggestions flow from findings and conclusion. They are clearly articulated with prioritization and/or classification. The executive feedback will be provided to the evaluation commissioning office.

The report presents clear and complete description of limitations and constraints faced by the evaluation. Stakeholders Consultations: The evaluation report gives a complete description of the stakeholders’ consultation process in the evaluation, including the rationale for selecting the particular level and stakeholders for consultation.

The report presents clear and complete description of limitations and constraints faced by the evaluation. The evaluation report provides clear explanation of the evaluation’s purpose and the objectives of the evaluation including the intended use and users of the evaluation and how the information will be used.

The reports, objectives and use of evaluation: The evaluation report provides clear explanation of the purpose and the objectives of the evaluation including the intended use and users of the evaluation and how the information will be used.

The Purpose, objectives and use of evaluation: The evaluation report provides clear explanation of the purpose and the objectives of the evaluation including the intended use and users of the evaluation and how the information will be used.

Recommendations flow from findings and conclusion. They are clearly articulated with prioritization and/or classification. The executive feedback will be provided to the evaluation commissioning office.
6.4 Clear prioritization and/or classification of recommendations to support use.

7.2 A gender-responsive methodology, methods and tools, and data analysis techniques are selected. Fully integrated (3)

7.3 The evaluation findings, conclusions and recommendations reflect a gender analysis. Fully integrated (3)

8.4 A gender-responsive methodology, methods and tools, and data analysis techniques are selected. Fully integrated (3)

Note: A gender-responsive methodology, methods and tools, and data analysis techniques are selected. Fully integrated (3)
